**In the Future Schooling system, How the Classroom
will be Look like?**

Imagine a classroom where learning is fun and exciting!

Cool Tech:

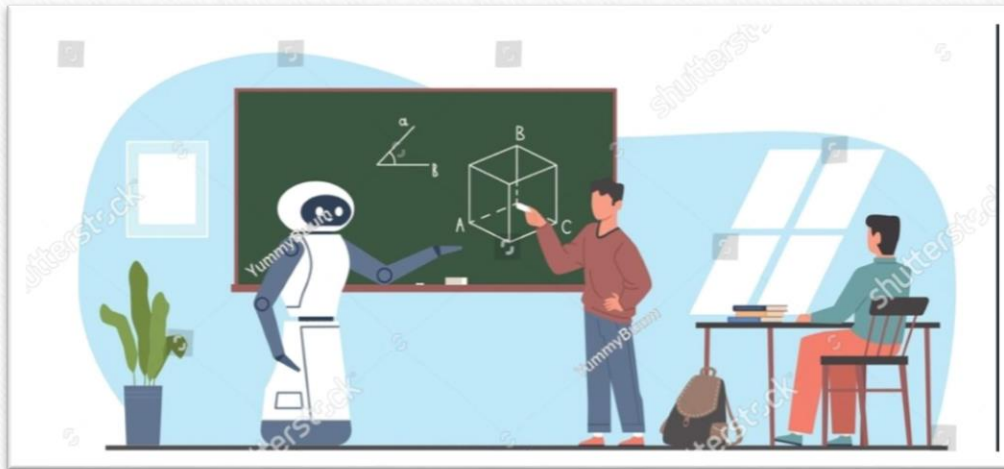

- There'll be lots of computers, tablets, and even special glasses that make learning feel like a game.

Global Friends:

- You'll be able to learn with students from all over the world, sharing ideas and making new friends.

**In the Future Schooling system, How the
School Buildings will be Look like?**

Imagine a School **where students feel connected to the nature!**

Eco-Friendly Design:

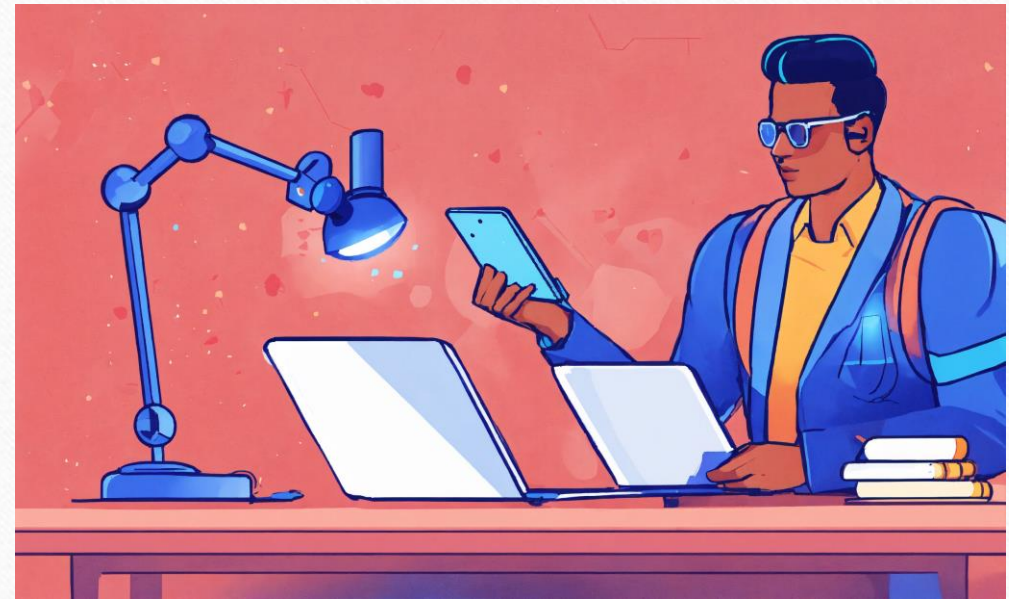

- Imagine schools built with materials that are good for the planet, like recycled materials and solar panels. These schools will be energy-efficient and have beautiful green spaces.

**In the Future Schooling system, How
the Teachers will be Look like?**

Imagine a School where **Teachers are Tech-Savvy!**

- **Tech-Savvy Educators:**

They'll be skilled in using technology to enhance learning experiences, from creating interactive lessons to incorporating virtual reality.

**In the Future Schooling system, How
the Playgrounds will be Look like?**

Imagine a Playgrounds, **that More Than Just Fun!**

Interactive and Engaging:

- Imagine playgrounds. could have interactive elements, like touch screens that trigger games or sensors that respond to your movements.
